

Profile

Motivated IT undergraduate with hands-on experience in front-end development, particularly using React JS, and technical proficiency in Tailwind CSS, Node.js, and various other tools and technologies. Passionate about AI, computer vision, and solving complex problems. I am eager to contribute to a team's success by leveraging my strong communication and collaboration skills.

Education

B.Sc. (Hons) in Computing and Information Systems

2022- present

Sabaragamuwa University of Sri Lanka

Current GPA - 3.527

G.C.E Advanced Level

2020

Sanghamiththa Girls' College, Galle

Common stream

Professional Qualifications

AI/ML Engineer - Stage 1

2024

Centre for Open and Distance Education - SLIIT

Certificate ID : p6fwly1pdb

Human Resource Management (HRM) Diploma

2021 - 2022

IMBS Green Campus, Gampaha

GPA : 3.76

Projects

RealTime Attendance System using Face Recognition Individual

- It is an attendance system using face recognition to revolutionize the way attendance is tracked.

Python OpenCV Face Recognition cmake

Bubble Food Order Placing Mobile App UI/UX Design Individual

- It is a user-friendly UI for an emerging online food ordering platform, connecting multiple cafes and restaurants.
- The platform features seamless order placement, schedule pickups, and personalized recommendations, with a focus on enhancing the customer experience through intuitive navigation.

Figma

HighWay Hub Group

- Developed a mobile application that serves as a virtual ticketing system for Sri Lankan highways.
- The app allows users to generate and scan QR codes for vehicle entry and exit, streamlining the toll payment process and reducing the need for physical tickets.

My contributions

- Designed the UI for the application.
- Developed the login, signup, and more screens with dynamic and user-friendly interfaces.
- Developed the user journey status updating bar.
- Integrated strip payment to handle user payments.

React Nodejs MongoDB Stripe Figma

Labour Partner Mobile App UI/UX Design Individual

- This app aims to simplify the process of finding skilled labourers for various jobs in your area and provides a platform for labourers to showcase their services.

Figma

- Created a this application to enable users to control their computer’s cursor and perform click actions using hand gestures, leveraging computer vision techniques to provide a touchless, intuitive interface.

PythonOpenCVMediaPipeAutopy

- Developed a real-time emotion detection system that analyzes facial expressions from live video feeds and classifies them into emotions such as happiness, sadness, surprise, anger, and neutral, utilizing deep learning techniques for accurate classification.

PythonOpenCVCNN

- This cutting-edge project uses real-time hand tracking and gesture recognition to adjust system volume effortlessly.
- By measuring the distance between the thumb and index finger, you can intuitively and contactlessly control the volume.

PythonOpenCVMediaPipe

- This is a UI design for an online OTC drug store, envisioned as an emerging platform in the healthcare and pharmaceutical industry.
- The design focuses on providing a seamless user experience, allowing customers to easily search and purchase medications online.

Figma

Tech-Skills		Soft-Skills	
Python	MySQL	Communication	Decision Making
JavaScript	Git	Adaptability	Organization
HTML/CSS	Figma	Problem Solving	Leadership
React	MongoDB	Teamwork	
React-Native	Trello	Creativity	
Node.js		Collaboration	

Achievements

Pearlhack 2.0 (Semi-Finals) IEEE Women in Engineering (WIE) Affinity Group of Sabaragamuwa University of Sri Lanka	2024
TechX Sri Lanka (Final 10) IEEE Computer Society Sri Lankan Chapter	2023
Code Blast National Hackathon (Final 10) SLT Mobitel mspace	2023

Volunteering

IEEE Student Branch of SUSL Volunteer	2023 - present
Society of Computer Sciences Member	2022 - present
